

**WE HAVE BEEN WORKING
WITH THE DIAN FOSSEY
GORILLA FUND INTERNATIONAL
FOR OVER 8 YEARS.**

We provide the trackers and rangers with clothing that will protect them from the elements so that they can research and monitor the gorillas in the wilds of the Congo and Rwanda. They require kit which is hardwearing and will keep them warm and dry in the mountain forests.

The conservation work carried out at the Dian Fossey Gorilla Fund focuses on four main areas: the daily protection of the gorillas, scientific research on gorillas and the eco systems, education and helping the local communities.
